WEB DEVELOPMENT EXPERIENCE

Coding Dojo, Full – Stack Web Development Resident

Dallas, TX – 2018

Completed an immersive web development program with more than 1,000 hours spent learning and earned highest possible marks in developing web applications using Python, MEAN, Ruby on Rails, and several of their frameworks.

Projects:

- + **Roll Call** (Python, JavaScript, Bootstrap) – A web-based school roster app that utilizes face recognition for check-in.
 - A solo project to that helped further my Python skills and explore new libraries. Inspired by prior work experience and current organization need.
 - Utilizes the Django framework as well as facial_recognition and OpenCV libraries.
- + **Socket Man** (HTML, JavaScript, CSS, socket.io, Express.js, Node.js) – A Pac Man replica I developed with fellow cohorts that expanded upon pre-course materials by incorporating new technologies.
 - Helped expand upon our understanding of Express.js and its modularization.
 - Introduced us to socket.io and the potential to have multiple users populating one page simultaneously.
