SUMMARY

I am a Web Developer and Software Engineer having recently graduated from the Coding Dojo bootcamp with the highest assessment marks in both Python, Ruby, and their respective MVC frameworks. I'm currently looking for an opportunity to become an immediate asset in a company that will allow me to deepen and expand upon my current arrangement of skills.

TECHNICAL SKILLS

LANGUAGES: JavaScript, Python, Ruby, HTML, CSS, Typescript

FRAMEWORK: Angular, Express.js, Django, Flask, Rails, Bootstrap

DATABASE: MySQL, SQLite, PostgreSQL, NoSQL, MongoDB, Building ERDs, ActiveRecord, Mongoose

Others: GitHub, jQuery, OpenCV, BCrypt, NPM, PIP, Amazon EC2, Amazon Web Service, APIs, Vagrant, AJAX, Node.js, Rails TDD, dlib, numpy

WEB DEVELOPMENT EXPERIENCE

Coding Dojo, Full – Stack Web Development Resident

Dallas, TX – 2018

Completed an immersive web development program with more than 1,000 hours spent learning and earned highest possible marks in developing web applications using Python, MEAN, Ruby on Rails, and several of their frameworks.

Projects:

- + **Roll Call** (Python, JavaScript, Bootstrap) – A web-based school roster app that utilizes face recognition for check-in.
 - A solo project to that helped further my Python skills and explore new libraries. Inspired by prior work experience and current organization need.
 - Utilizes the Django framework as well as facial_recognition and OpenCV libraries.
- + **Socket Man** (HTML, JavaScript, CSS, socket.io, Express.js, Node.js) – A Pac Man replica I developed with fellow cohorts that expanded upon pre-course materials by incorporating new technologies.
 - Helped expand upon our understanding of Express.js and its modularization.
 - Introduced us to socket.io and the potential to have multiple users populating one page simultaneously.
- + **BLU Spellbook** (HTML, CSS, Bootstrap, Popper.js, Python, Django, Jinja2) – A tool featuring a database of spells made to assist players of the Final Fantasy XIV community.
 - Expand upon CSS skills including screen responsiveness and table structure.
 - Calling upon individual static files using OOP.
 - Strengthening attention to details that will best assist a wide audience.
